Management REPORT

No. 156

THE CAMAS PUBLIC LIBRARY has received the book WOOD PULP, A BASIC FIBER as a gift from CZ. In expressing appreciation for this book and others which the mill has presented from time to time, Bob Iams, librarian, invites mill people to make free use of library facilities. He adds:

"The subject of paper and paper making is given consideration when the Camas Public Library buys its books. To date, the library has about 65 books on paper and more books on related topics such as forestry, conservation, wood fibers, etc. The library also has a large file of pamphlets on all phases of the paper industry and subscribes to two magazines in the field, 'The Paper Industry' and 'The Paper Maker.' These books and magazines are all available to any one living in this area."

CHARLIE DODGE, who has had a long and keen interest in safety, is filling in at the safety department during Audre Fisher's absence. Audre is reported to be doing very well after undergoing back surgery on Monday.

RAINFALL so far this year totals 6.80 in. compared to .70 last year on Jan. 11. More than 2 1/2 in. fell during the week ending Wednesday. River level yesterday, 11.7 ft. High temperature, January 5, 57°; low, January 7, 29°.

CREDIT UNION OFFICIALS remind all members of the annual meeting set for Friday evening, Jan. 20 in CRD auditorium. Russell Hickey, reports 1344 loans made during 1955, totalling almost \$1 million (\$923,000, to be exact.) Shares on hand at the year-end reached \$838,000; loans outstanding, \$702,000. All three totals mark new highs in local Credit Union history. Gains were achieved in assets, loans, and shares.

CZ CORPORATION has purchased 33.66 acres of waterfront property on N.W. Front avenue, Portland, at a cost of \$375,000. Plans for the development include a modern warehouse with terminal facilities for loading and unloading barges, railroad cars, and trucks. It will be a key distributing point for the Corporation's products. Filling of the land will begin at once. It is expected that all facilities will be complete before the end of 1958.

PAPER SCHOOL: Tonight, Jan. 12, Third Year Class meets from 8:30 to 10 P.M. J. V. Savage, speaker. Fourth Year: J. A. Swanson and L. W. Bailie will discuss steam and electricity. First Year Class: Tues., Jan. 17, discussion led by O. C. Wheeler and Deane Ritchey, sulfite mill. Second Year Class Wed., Jan. 18, A. R. Kuhn, Jr., SF Headquarters, will discuss sale of CZ products.

TUESDAY, JAN. 17, IS BLOOD BANK DAY - 12:00 NOON - 6 P.M.
MacMaster Assembly Room

Employees of our plant have always donated generously but the need for blood and the quantity used in Clark county continues to exceed the amount donated. An additional effort is being made at this time to encourage more of the townspeople to donate and it is hoped that this visit will be one of the most successful we have ever had. To make this visit a success, we must all again do our share.

When the appointment sheets come to your department, won't you put your name down, for it is very important that we meet our quota of 250 pints of blood.

THIS ADVERTISEMENT with accompanying sketch of a doctor and newborn baby is CZ's first big ad of the new year. It is scheduled to appear in TIME, Jan. 30; in NEWSWEEK, Feb. 6; and in national editions of THE WALL STREET JOURNAL during February. Each issue of these publications reaches more than 3½ million subscribers.

SEVEN BABIES A MINUTE

A bumper baby crop (average: seven births a minute) is spurring America's greatest industrial revolution. In satisfying the growing needs of a growing population, our economy is pushing through to ever-higher levels of production and consumption.

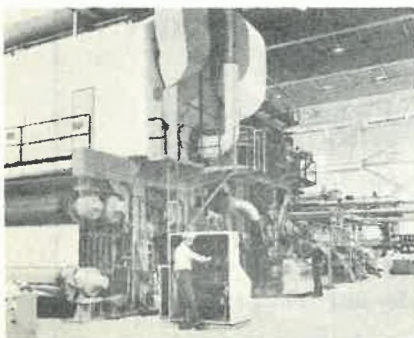

A baby born today, for example, creates a lifetime demand for at least 15 tons of paper. So America's paper-makers, already producing at full capacity, must virtually double their output over the next 20 years.

This is why Crown Zellerbach is spending more than \$1 million a week on plant expansion and product development.

Having already boosted production 83% since 1945, we are still hard-pressed to satisfy mounting demands for our paper products. So this year we are stepping up our expansion program, to increase capacity by another 13%.

Crown Zellerbach, like many companies, is growing with America. A million dollars a week backs our faith in the economy's dynamic future.

GREATER PRODUCTIVITY IS THE KEY TO PROGRESS

Our new tissue machine at St. Helens, Oregon, largest of its type in the world, required an investment of more than \$7 million. In 2 minutes it can turn out enough household tissue to last you a lifetime.

OUR SYMPATHY goes to the family of L. P. Walden who suffered a fatal pedestrian injury on Oak Park road Friday night. Mr. Walden, a member of No. 2 maintenance crew, had almost 20 years of mill service. His funeral was held Tuesday at Swanks.

THE FIRST LOST-TIME INJURY for 1956 occurred on Saturday, Jan. 7. Orville Dailey, 4th hand on No. 8 paper machine, stepped on a roll plug and fell, which resulted in a compound fracture of the lower left leg.

OLIVER HAMMER, No. 15 shipping, received his 25-year watch Wednesday. The presentation was made in the department by Mr. Gallaway.

AVERAGE DAILY PRODUCTION for the paper machines last week was 812.5 tons. This, with the exception of the record of 816.4 tons obtained for the week ending Sept. 26, 1955, is the highest weekly production to date. No. 12 machine was highest in efficiency at 95.0%, and only 15 minutes down-time.

PRESS RELEASE: Lowell M. Clucas, Jr. joined Crown Zellerbach Corporation on January 9 as assistant to the director of public relations in San Francisco. A former newspaperman, Mr. Clucas has been senior partner in the international public relations firm of Clucas and Redlich with headquarters in Munich, Germany. Before forming the firm, he was U. S. public affairs officer for Bavaria from 1952 to 1954.

For seven years, following the war, Mr. Clucas was associated with the Voice of America, first as chief of its world-wide English language service and finally as acting director of news and comment. He represented Voice of America at congressional hearings on the Katyn Forest massacre and at United Nations and other conferences. A native of Bridgeport, Conn., Mr. Clucas was graduated from Yale in 1939.

THE SERVICE PIN DINNER next Thursday, Jan. 19, is set for 6:30 P.M. at the Inn. Recipients are asked to come shortly after six o'clock so seating can be accomplished without confusion. KOIN musicians will start their musical program at 6:00. Husbands and wives of those receiving 25-year awards and over are special guests.

In addition to the two 40-year men and four 35-year men listed last week, eight 30-year men and women will receive awards. These include Arthur M. Alexander, E. Clay Aslin, Lewis E. Burden, Irvin F. Helton, Basil J. Pillette, Mary Rodgers, Henry S. Schwartz, and Anna Tall. Six men and women will receive 25-year awards; Raymond J. Bruce, Charlotte Esser, Oliver E. Hammer, Thomas W. Myers, Alburn E. Richards, and Guy W. Tennant. Four men who retired during October, November, December, and January are being invited with their wives to receive awards denoting exact years of service. These include James B. Knight, Sr., Carl A. Rietz, Wm. G. McBroom, and Henry Alder. The dinner honors the 165 employees whose awards are due from Oct. 1, 1955 to Feb. 1, 1956.
